Office Action Summary

Art Unit: 2143

## **DETAILED ACTION**

## Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - Claims 1-37, drawn to a method of providing a service at a mobile device, classified in class 709, subclass 219.
  - II. Claim 38, drawn to memory storing a structure for generating an image of a permanent record of a device, classified in class 715, subclass 527.
  - III. Claim 39, drawn to memory storing a data structure for generating input data for a specific printer, classified in class 358, subclass 1.2.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I-III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as lacking a security item data object providing means of validating the authenticity of said permanent record of the service, and a list of image rendering preference descriptors defining how to render an image for the printer. See MPEP § 806.05(d).

3.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Application/Control Number: 09/870,538

Art Unit: 2143

5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II or III, restriction for examination purposes as indicated is proper.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
